**Associate Editor, Nature Communications**

*Venerdì 3 Febbraio 2016*  
*ore 12:00*

*Aula G2C Macroarea di Scienze M. F. N.*

***Abstract:***

Nature Communications is the flagship open access journal of the Springer Nature Publishing Group. It publishes high quality research spanning the fields of Biology, Chemistry, Physics, Earth Sciences and related disciplines as well as multidisciplinary articles. In this talk I will introduce Nature Communications, highlighting its scope within the Nature Research journal family. I will also talk through our editorial process and our publishing policies and I will give some insights into our one-year old trial on transparent peer review.
